PHE above are First Class, justly repular, and prompt paying companies. They invite investigation late their condition and solicit business entirely upon their real merits. In point of solveney and reliability and honorable dealing, they have but few equals, and no respective. They are founded upon the very best securities in the world—first class bonds and merityages upon property in New York and Brooklyn—sacurities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the finetuations of the market, and liable, in times of panic, as the experience of the past leaches, to become almost, if not entirely, falueless. And while there are Companies entering the field of competition, well calentated to mislead by publishing partial and constitued statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above mamed companies always have and keep over and above their capital twice the amount, and it most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies is used without delay, and farms risks for a series of years taken at less rates than can be done by V tual Companies, and a certainty given instead of an uncertainty. All losses promptly adjusted and paid.

New York Life Insurance Company, CASH CAPITAL OVER . . \$1,900,000 all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

The Barbarism of the Rebels.

Report of the Committee on the Conduct of the War.

[Concluded.]

The evidence of that distinguished and patriotie citizen, Hon. William Sprague, firms and fortifies some of the most revolting statements of former witnesses. His object in visiting the battlefield was to re-

for, and at the same time said that Colonel Slocum had been dug up by the rebels, by thirty or forty yards below, and there burnspot designated, where we found coals and nshes and hones mingled together. A little distance from there we found a shirt, (still buttoned at the neck,) and a blanket with large quantities of hair upon it, everyspot indicated as the grave of Major Ballon, but found no body there; but at the place pointed out as the grave where Colonel Slocum was buried, we found a box, which, upon being raised and opened, was found a contain the body of Colonel Slocum.-The soldiers who had buried the two bodies were satisfied that the grave which had

been opened, the body taken out, beheaded, and burned, was that of Major Ballou, because it was not in the spot where Colonel Slocum was buried, but rather to the right of it. They at once said that the rebels had made a mistake, and had taken the body of Major Ballou for that of Colonel Slocum. The shirt found near the place where the body was burned I recognized as one helonging to Major Ballon, as I had been very intimate with him. We gathered up the ashes containing the portion of his re-mains that were left, and put them in a cottin, together with his shirt and the blanfield where the battle had first commenced, non. and began to dig for the remains of Capt ing the ditch or trench, we found it filled to investigate. with soldiers all buried with their faces them, placed them in a coffin, and brought them home."

In reply to the question of the member of the committee, as to whether he was ant usfied that they were buried intentionally with their faces downward, Gov. Spragne's answer was. "Undoubtedly! Beyond all controversy!" and that "it was done an a mark of indiguity." In answer to another question, as to what their object could have been, especially in regard to the body of Col. Slocum, he roplied, "Sheer brutality, and nothing clee. They did it on account of his courage and chivalry in forcing his regiment, fearlessly and bravely upon them, He destroyed about one half of that Georgia regiment which had been made up of their citizens." When the inquiry was put whether he thought those barbarities were committed by that regiment, he responded, By that same regiment, as I was told. While their own dead were buried with marble head and foot stones, and names upon them, ours were buried, as I have stated in trenches." This eminent witness concludes his testimony as tollows :- " I have published an order to my second regiment, to which these officers were attached, that I shall not be satisfied with what they have shall do unless they give an account of one rebel killed for each of their own number."

The members of your committee might content themselves by leaving this testimony to the senate and the people, without a word of comment; but when the enemies of a just and generous government are uttempting to excite the sympathy of disloy al men in our own country, and to solicit the aid of foreign governments, by the grossest misrepresentations of the objects of the war, and of the conduct of the officers and soldiers, of the republic, this, the most startling evidence of their insincerity and inhumanity, deserves some notice at our bands.

History will be examined in vain for a parallel to this rebellion against a good government. Long prepared for by ambitious men, who were made doubly confident of success by the aid and counsel of former administrations, and by the belief that their plans were unobserved by a magnanimous people, they precipitated the war at a mo ment when the general administration had just been changed under circumstances of astounding perfidy. Without a single rea sonable ground of complaint, and in the tace of repeated manifestations of modera tion and peace on the part of the President and his friends, they took up arms and de clared that they would never surrender un til their rebellion had been recognized, or raman of any kind go to the institutions established by our fathers had been destroyed. The people of the logal states, at last convinced that they could preserve their liberties only by an appeal to Bachelor's Oriental Bair Tonic. the God of battles, rushed to the standard of the republic in response to the call of the chief magistrate.

Every step of this monstrons treason less been marked by violence and crime. No SPRING GOODS AT WHEELOCK'S transgression has been too great and no wrong too startling for its leaders. They disregarded the sanctity of the eaths they had taken to support the constitution; they repudiated all their obligations to the propie of the free states; they deceived and betrayed their own fellow citizens, and crowded their armies with forced levies; they drove from their midst all who would they drove from their midst all who would not yield to their despotism, or filled their prisons with men who would not enlist under their flag. They have now crowned the rebellion by the perpetration of decdasenreeknown even to savago wariare.

dence presents a remarkable concurrence of opinion and of judgment.

Our fellow countrymen, heretofore auslibearance of the government of the United States, and the barbarous character of the crasade against it, will be shocked by the statements of these unimpenched and unimpeachable witnesses, and foreign nations must, with one accord, however they have have have besteless acquired to be a property of the prope l esitated heretofore, consign to lasting odi-Sepoya in India. Gen. Beauregard himself, who, on a very

cover the bodies of Colonel Slocum and Ma- murderous privateers, and the rebel surjar Ballon of the Rhode Island regiment, geous disdained intercourse and communimen to identify the graves. On reaching the place he states that "we commenced dead will revive the recollection of the cruding digging for the bedies of Col. Slocum and elties to which savent with our own surgeons, taken in bay to be the place he states that "we commenced dead will revive the recollection of the cruding that the bedies of Col. They were buried, in many cases, naked, with their faces downward. They were left to decay in the open air, "While digging, some negro women their bones carried off as trophies, some-came up and asked whom we were looking times, as the testimony proves, to be used as personal adornments, and one witness deliberately avers that the head of one of some men of a Georgia regiment, his head our most gallant officers was cut off by a cut off, and his body taken to a ravine secessionist, to be turned into a drinking cup on the occasion of his marriage. Moned. We stopped digging and went to the strong as this revelation may appear to be, your committee have been informed that during the last two weeks the shull of a Union soldier has been exhibited in the office of the sergeant-at arms of the hou-e of representatives, which had been converwhere indicating the burning of a body ted to such a purpose, and which had been there. We returned and dug down at the found on the person of one of the rebel prisoners taken in a recent conflict. The testimony of Gov. Sprague of Rhode Island is most interesting. It confirms the worst reports against the rebel soldiers, and conclusively proves that the body of one of the bravest officers in the volunteer service was burned.

He does not besitate to add that this hyena desecration of the honored corpse was because the rebels believed it to be the body of Col. Slocum, against whom they were infuriated for having displayed so much chivalry and courage in forcing his regiment fearlessly and bravely upon them. These disclosures, establishing, as they incontestably do, the consistent inhumanity of the rebel leaders, will be read with sor cow and indignation by the people of the toyal states. They should inspire these people to renewed exertions to protect our country from the restoration to power of such men. They should, and we believe ket with the hair left upon it. After we had they will, accuse the disgust and horror of done this we went to that portion of the foreign nations against the unholy rebel-

The Barbarism of the Rebels. Report of the Committee on the Con-duct of the War. (Concluded.)

The evidence of that distinguished and patriotic citizen, Hon. William Sprague, governor of the state of Rhode Island, con-

out found no body there; but at the place pointed out as the grave where Colonel Slocum was buried, we found a box, which upon being raised and opened, was found to contain the body of Colonel Slocum.— The soldiers who had buried the two bodies are carriefed that the grave which had were satisfied that the grave which had been opened, the body taken cut, beheaded, and burned, was that of Major Ballon, because it was not in the spot where Colonel Slocum was buried, but rather to the right of it. They at once said that the rebels had Major Ballon for that of Colonel Slocum. The shirt found near the place where the body was burned I recognized as one helonging to Major Ballon, as I had been very intimate with him. We gathered up the ashes containing the portion of his remains that many laft, and rest them in a mains that were left, and put them in a collin, together with his shirt and the blan ket with the hair left upon it. After we had done this we went to that portion of the field where the levile had for field where the battle had first commenced. and began to dig for the remains of Capt Tower. We brought a soldier with us to designate the place where he was turied He had been wounded in the battle, and had seen from the window of the house where the quartin was intered. On once where the captain was interred. On opening the ditch or trench, we found it filled with soldiers all buried with their faces with soldiers an oursed with their faces downward. On taking up some four or five, we discovered the remains of Capt. Tower, mingled with those of the men. We took

them, placed them in a coffin, sud brought them home." In reply to the question of the member of the committee, as to whether he was and safed that they were Luried intentionally with their faces downward, Gov. Spragne's answer was. "Undoubtedly! Beyond all controversy!" and that "it was done and mark of indignity." In answer to another question, as to what their object could have been especially in regard to the hode. question, as to what their object could have been, especially in regard to the body of Col. Slocum, he replied, "Sheer brushry, and nothing else. They did it on account of his courage and chivalry in forcing he regiment, fearlessly and bravely upon them. He destroyed about one half of that Georgia seriment which had have made an of them. regiment which had been made up of their citizens. When the inquiry was pu was put whether he thought those barbarities were committed by that regiment, he responded. By that same regiment, as I While their own dead were buried with mar-ble head and foct stones, and names upon them, ours were buried, as I have stated in trenches." This eminent witness concludes his testimony as follows :-- " I have publish ed an order to my second regiment, to which these officers were attached, that I shall not be satisfied with what they have shall do

unless they give an account of one rebel killed for each of their own number." The members of your committee might content themselves by leaving this testimony to the senate and the people, without a word of comment; but when the enemies of a just and generous government are at tempting to excite the sympathy of disloyal men in our own country, and to solici the aid of foreign governments, by the grossest misrepresentations of the objects of the war, and of the conduct of the officers and soldiers of the republic, this, the most startling evidence of their insincerity and inhumanity, deserves some notice a

History will be examined in vain for a parallel to this rebellion against a good gov ernment. Long prepared for by ambitious men, who were made doubly confident of success by the aid and counsel of former administrations, and by the belief that their plans were unobserved by a magnanimous people, they precipitated the war at a mo ment when the general administration had ment when the general administration had agree renedy, call at talkian a continue. astonading perfuy. Without a single reasonable ground of complaint, and in the face of repeated manifestations of modera tion and peace on the part of the President and his friends, they took up arms and de clared that they would never surrender unil their rebellion had been recognized, or he institutions established by our fathers had been destroyed. The people of the loy al states, at last convinced that they could preserve their liberties only by an appeal to the God of battles, rushed to the standard of the republic in response to the call of the chief magistrate.

Every step of this monstrons treason but been marked by violence and crime. No transgression has been too great and no wrong too startling for its leaders. They disregarded the sanctity of the oaths they had taken to support the constitution; they repudiated all their obligations to the paople of the free states; they deceived and betrayed their own fellow citizens, and crowded their armies with forced levies; they drave from their midst all who would not yield to their despotism, or filled their prisons with men who would not culist under their flag. They have now crowned the rebellion by the perpetration of deeds scarcely known even to savage warfare. The investigations of your committee

have established the fact beyond controversy. The witnesses called before us were men of undoubted veracity and character, Some of them occupy high positions in the army, and others high positions in civil lite. Differing in political sequiments, their evidence presents a remarkable concurrence 1862

of opinion and of judgment.

Our fellow countrymen, heretofore sufficiently impressed by the generosity and forbearance of the government of the United States, and the barbarous character of the crusade against it, will be shocked by the statements of these unimpeached and unimpeachable witnesses, and foreign nations must with one accord however they have must, with one accord, however they have l esitated heretofore, consign to lasting odi-um the authors of crimes which, in all their details, exceed the worst excesses of the Sepoys in India.

patriotic citizen, Hon. Wintam opengue, governor of the state of Rhode Island, confirms and fortifies some of the most revealting statements of former witnesses. His object in visiting the battlefield was to receive the bodies of Colonel Shoum and Major Ballon of the Rhode Island regiment. He took out with him several of his own men to identify the graves. On reaching the place he states that "we commenced digging for the bodies of Col. Shoum and Major Ballon at the apot pointed out to us privately subject their prisoners. They were buried, in many cases.

Whater Ballon at the apot pointed out to us of the crossities to which savage tribes subject their prisoners. They were buried, in many cases. Gen. Beauregard himself, who, on a very the place he states that "we commenced digging for the bodies of Col. Sloeum and Major Ballou at the apot pointed out to us by these men who had had been in the action.

"While digging, some negro women came up and asked whom we were locking for, and at the same time said that Colone Sloeum had been dug up by the rebels, by some men of a Georgia regiment, his head cut off, and his body taken to a rawine thirty or forty yards below, and there burned. We stopped digging and went to the spot designated, where we found coals and ashes and bones mingled together. A little distance from there we found a shirt, a spot designated, where we found as and ashes and bones mingled together. A little distance from there we found a shirt, a spot designated where the neck.) and a blanket of representatives, which had been converted the recollection of the erical many can be designed to the bones carried of as trophies, some times, as the testimony proves, to be used a deliberately avers that the head of one of our most gallant officers was ent off by a secessionist, to be turned into a drinking thing the last two weeks the skull of a little distance from there we found a shirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from there we found as hirt, a little distance from the erecal pound with their faces downward. They were burned the offers of the sergeant at arms of the house of the sergeant at the l with large quantities of hair upon it, everywhere indicating the burning of a body
there. We returned and dug down at the
spot indicated as the grave of Major Ballon,
but found no body there; but at the place
cointed out as the grave where Colored land is most intercesting. It confirms the testimony of Gov. Sprague of Rhode Island is most interesting. It confirms the worst reports against the rebel soldiers, and conclusively proves that the body of one of the bravest officers in the volunteer service was burned.

He does not besitate to add that this hyena desecration of the honored corpse was because the rebels believed it to be the body of Col. Slocum, against whom they were infuriated for having displayed so much chivalry and courage in forcing his made a mistake, and had taken the hody of Major Ballou for that of Colonel Slocum. These disclosures, establishing, as they incontestably do, the consistent inhumanity of the rebel leaders, will be read with sor row and indignation by the people of the loyal states. They should inspire these people to renewed exertions to protect our country from the restoration to power of people to renewed exertions to protect our country from the restoration to power of such men. They should, and we believe they will, arouse the disgust and horror of foreign nations against the unholy rebel-

Let it be ours to farnish, nevertheless, a continued contrast to such barbarities and crimes. Let us persevere in the good work of maintaining the authority of the consti-rution, and of refusing to imitate the mon-strous practices we have been called upon to investigate.

Your committee beg to say, in conclusion, that they have not yet been able to gather testimony in regard to the addition al inquiry suggested by the resolution of the senate, whether Indian savages have been employed by the rebels in military service against the United States, and how such warfare has been conducted by the said savages, but that they have taken the proper steps to attend to this important daty.

The senate special committee on the Pacific railroad agreed this morning to report the hosue hill without amendment, and urge to be generally acceptable. Information was received here to-day that

Hon. G. F. Railey, member of congress from the Worcester (Mass.) district, has died of consumption.

Captains Braggs and Bailey of the navy, participants in the naval engagements bo low New Orleans, visited the senate and house to-day, and were warmly welcomed. They exhibited two rebel flags taken in the fight, and report, privately that when they

left the first important movements were contemplated, not proper to publish. The border state members made a vigor ious opposition, to day, to the passage of Lovejor's bill shotishing slavery in the navy yards, forts, arsenals, &c., owned by

the United States. Mr. Crisfield, of Maryland, contended that it would abolish slavery in the captial of his state, as all slaves would become free, under the bill, hy simply entering the naval yard there.

The senate passed the bill to-day establishing colored schools in this city, and taxing the property of negroes to pay for them. The bill also provides for the trial and pun ishment of colored offenders in the same manner as white persons, thus repealing what is known as the black code.

There are one hundred persons in the old capitol prison here.

The senate confincation committee ha had one meeting, but has done nothing except discuss the general principles and read over various bills. > AFTERNOON DESPATCHES. BUFFALO, May 10,

Owing to the destruction by fire of a oridge near Troy, we are without our usual despatches, as the eastern lines which cross the river there were all destroyed.

A fire broke out in the cooper-shop of the Auburn states prison at 6 o'clock last evening, destroying that building and a large amount of stock and tools, belonging to the cooper contractors, Messrs, A Miller & Co. The loss to the state in the destruction of the shop will amount to about \$1,000. The loss to the contractors was about \$10,000. The citizens of Auburn, and the convicts in the prison, worked manfully to prevent the fire from spreading.

WAS THERE A SURPRISE?-The question of the surprise of Gen. Grant's army at Pittsburg Landing was discussed in the senate, yesterday. Messrs. Sherman and Browning thought there was no surprise! Mr. Harlan said Gen. Grant is not fit to command an army, and that it was the general opinion of the lows troops that the army was undoubtedly surprised; he was not willing that lowa troops should be led by Gen. Grant. This is the prevailing sentiment in Wisconsin, and, we believe, the whole west.

LATEST FROM YORKTOWN. -I learn by a steamer from Yorktown that Gen. McClel lan has advanced 12 miles beyond Williamsburg, and has had several skirmishes with the enemy, routing them with heavy loss. The embarkation of troops for West Point was progressing with great rapidity, and a heavy battle had taken place, on Wednesday afternoon, between the troops under Gens. Franklin and Sedgwick, and the rebels under Lee, who were endeavor ing to make their way to Richmond. It i sain to have been the severest battle on the peninsula, and the rebels were totally de feated and flauked, being driven back tow ards the forces under Gen Johnson, in the Chicahominy. The whole number of the federals killed and wounded was 300. The enemy were driven back by our gunboats with great slaughter. Presents advantages in all respects equal, and in some superior, to those of other companies doing business in the northwest. Its rates, its plan of operations, and its basis, are identical with the best companies in this country and Europe. Its age, and consequently its accumulations, are not equal to theirs in amount, but in proportion to the age of risks, and amount at risk, they will compare favorably with the most

successful. Its assets, which have resulted solely from the accumulations of three years, amount to \$86,881.20, and its annual income, from policies now in force, over

\$65,000. Its assets and business are constantly increasing. Its losses have been promptly.

paid. Its trustees are well known, honorable business men, and are as capable of managing an institution of this kind, as men in any other portion of the United States. The experience of the company thus far proves that we can have as reliable companies in the west as any where else, if we will, and self-interest certainly indicates that we should have them, and build up home interests in every practicable way. In the above respects, this company claims equality with its co-workers, and in the following superiority: It obtains the greater portion of its husiness in the healthiest portion of the United States, thus having the advantage of a less per centage of loss; it receives higher rates of interest on its investments, thus making more rapid accumulationsboth very important items in Life Insurance; and its expenses have been less in proportion to its business than any other new company doing business in the United States. S. S. DAGGETT, President.

The company has a large number of lives insured in Janesville. Applications for in-surance received by the agent, Willard Merrill, at his law office in Lappin's block.

## Naval Engagement in Hampton Roads

[We repeat the portion of the details of the engagement near Fortress Monroe published yesterday, in connection with those received last evening, that the reader may have a connected parrative of the transac-

BALTIMORF, May 9. The special correspondent of the American sends the following, relative to affairs in Hampton Roads and the peniusula:

FORT MONROE, May 8. This has been a most stirring and excit ing day at Old Point, and all are anticipat ing the early fall of Norfolk. At eleven o'clock the steamer Naugatuck was observed raising steam, and about 12 o'clock she moved out by the side of the Monitor, which vessel also cleared her deck for ac tion, taking down her awning and stood forth in full fighting trim.

11:30.—The gunboat Daco'ah has just moved up in line of battle, together with the sloop of war Seminole and San Jacinto. The flag ship Minnesota was also under steam.

12 o'clock.-The Naugatuck has moved up towards Elizabeth river, followed by the the Captain is a compliment worthily be-Monitor and Dacotab, in line of battle. The San Jacinto follows slowly. Heavy firing can still be heard in the direction of James riv r, where you have already been informed by telegraph, the Galena and other gunboats have gone. The Susquehanna has just gone up. In the meantime, the Dacotab, Monitor and Naugatuck had reached the channel, and taken a position off Sewall's Point, and the Dacotali fired a shot towards Crancy Island. A second shot from the Dacotah struck the beach at

Sewall's Point. 12:30.—The Susquehaun i moves up and takes the lend of the San J winto and Semincle. No answer from either of the rebel forts; and the Dacotah and Seminole are steaming un Elizabeth river. The Naugatuck-is lying off towards the mouth of the James river. Presently the Dacotah and Monitor approach Craney Island and Sewall's Point. The Dacotah fires every few minutes, alternately at Sewall's Point and Crancy Island. The enemy making no reply, although the balls reached their intended destination. The Monitor is now taking the lead, in the meantime the Seminole and Susquehanna open on Sewall's Point, and two shots are fired from the Point. The latter falling short of the Monitor, which is

now a mile above the other vessels. 12:40.—The rebels are firing rapidly from Sewall's Point, principally at the Monitor, while a succession of shells are being poured on the enemy from the Susquehauna Dacotah, Seminole and San Jacinto, broadside after broad-side. The Rip Raps also throw occasional shells into Sewalt's Point.

12:50.—The Susquehanna, Dacotah San Jacinto and Seminole are pouring shells, and the Monitor threw her first two shells full a mile and a half from the Point. The Moni or is now within a mile of

Sewall's Point moving slowly forward and fixing. The enemy are also firing brinkly from Sewall's Point at the Monitor, and shells are falling thickly around her. 'Craney Island is also joining in the fight, and has just thrown several shells at the Monitor, one of which exploded directly over her. The Monitor moved steadily forward, occasionally firing and receiving shells and shot from the rebel battery with perfect indifference.

Two o'clock.-The Monitor has fallen back and lays alongside of the Susqueban ns, probably for the purpose of communicating with her. The Naugatuck, in the meantime, has been throwing shells into Pig's Point, and the fleet has also thrown a number of them in the same direction. 2:15 P. M .- The Monitor and Dacotah

are moving along again slowly up the mouth of the Elizabeth river. A dense black smoke has commenced to arise from Sewall's Point, indicating that our incendiary shells, thrown there, have fired the barracks. The Dacotah continues to throw her shells directly into the Point. The vessels by constantly changing position, destroy the range of the rebel gunnuers. They are, however, making quite a determined fight from their works, giving us almost shell for shell, shot for shot. The Monitor has laid out of action for nearly one hour, and is probably cooling her guns. The Rip Haps battery has the range of

Sawall's Point perfectly. 2:45 r. M .- The Merrimac now makes her pregrance on the scene. She has her prearance on the scene. She has just proved from behind Sewall's Point, and is slowly running down towards the federal flect. simultaneously with the appearance of the Herrimae the Monitor started from behind a wooden vessels and moved up to meet the many. The larger vessels have drawn as and left. The Monitor and Naugatuck are now in the path of the approaching Mericae. The vessels of the fleet had been lying mietly at anchor for the last half hour, whethe signal from the flag ship ordered them in

aignal from the flag chip ordered them in to return. The Susquebanna leads that way, followed by the San Jacinto, Seminole, Dacotah, and the Monitor bringing up the rear, and all using the prestest speed towards the fort. To the spectators this seemed rather mortilging. Down in line the Monitor was seen to halt, the San i Jacinto and Dacotab also followed, leaving the Susquehauna and Seminole abead. The four steamers and the Monitor having taken their positions, the Merrimac also halted, and the fire vessels stood thus not more than a mile and a half apart, the Merrimae apparently unwilling to come further down and the Monitor unwilling to go further up. The Monitor also steamed up in front of the Fortress wharf, followed slowly

turned round and steamed back, and the Vanderbilt, without turning, slowly backed water down the river. Whilst this manen vering was going on, firing had entirely ceased from all points.

3:30-The Merrimac turns round and steams back towards Norfolk with her rebel flag flying. The Dacotah again proceeds up towards the Merrimac, and the Monitor starts towards the mouth of the Elizabeth river. The Dacotah is now within easy range of Sewall's Point, but the batteries there do not open on her. She and the Monitor have both stopped, and the Merri mac is lying stationary about a mile from the Crauey Island batteries. Her coming is an important movement which cannot be Arago have now steamed up in front of the SPRING AND SUMMER GOODS wharf. The Merrimac has run back under the guns of Crancy Island, and the Monitor is steaming off towards her, at full sneed. The Minnesota is also coming up again and from the princely establishments of A. T. Stewart, at full speed. The effort being to draw the citatien, Mellen & Co., by E. McKey, of this firm, and the fleet have been moving back and for ling the business senson. We shall be in Pho Minnesota is also coming up again ward but the Merrimae still lies under the guns of Crancy Island. The Minnesota,

An officer of the Seminole states that the robel fing stuff on Sowall's Point was twice shot away during the bombardment. The first time it fell it was picked up, and a rebol in a red shirt jumped on the ramparts with a stump of the stuff and the flag, and waved it, when another shell struck him, killing him, and it is supposed others near bim. Of the many shots fired at the fleet by the rebals not one struck any of our versels; some went over their mark, but Liost fell short. The rebels could be distinctly seen from the vessels carrying off their dead and wounded.

#### Naval Engagement in Hampton Roads

[We repeat the portion of the details of the engagement near Fortress Monroe published yesterday, in connection with those received last evening, that the reader may have a connected narrative of the transac-

BALTIMORE, May 9. The special correspondent of the American sends the following, relative to affairs in Hampton Roads and the peniusula: FORT MONRCE, May 8.

This has been a most stirring and excit ing day at Old Point, and all are anticipating the early fall of Norfolk. At eleven o'clock the steamer Naugatuck was observed raising steam, and about 12 o'clock she moved out by the side of the Monitor, which vessel also cleared her deck for ac tion, taking down her awning and stood

tion, taking down her awning and stood forth in full fighting trim.

11:30.—The gunboat Daco'sh has just moved up in line of battle, together with the sloop of war Seminole and San Jacin-The flag ship Minnesota was also

12 o'clock.—The Naugatuck has moved up towards Elizabeth river, followed by the Monitor and Dacotah, in line of battle, The San Jacinto follows slowly. Heavy firing can still be heard in the direction of James riv r, where you have already been informed by telegraph, the Galena and other gunboats have gone. The Susquebanna has just gone up. In the meantime, the Dacotah, Monitor and Naugatuck had reached the channel, and taken a position off Sewall's Point, and the Dacotah fired a shot towards Craney Island. A second shot from the Dacotab struck the beach at Sewail's Point.

12:30.—The Susquehaun i moves up and takes the lead of the San Jucinto and Seminole. No answer from either of the rebei forts, and the Dacotab and Seminole are steaming up Elizabeth river. The Nauga tuck-is lying off towards the mouth of the James river. Presently the Dacotah and Monitor approach Crancy Island and Sewall's Point. The Dacotah fires every few minutes, alternately at Sewall's Point and Crancy Island. The enemy making no reply, although the balls reached their intended destination. The Monitor is now taking the lead, in the meantime the Seminole and Susquehanna open on Sewall's Point, and two shots are fired from the Point, The latter falling short of the Monitor, which is now a mile above the other vessels.

12:40.—The rebels are firing rapidly from Sewall's Point, principally at the Monitor, while a succession of shells are being poured on the enemy from the Susquehanna, Dacotah, Seminole and San Jacinto, broadside after broad-side. The Rip Raps also threw occasional shells into Sewall's Point. 12:50 .- The Sasquehanna, Dacotah San Jacinto and Seminole are pouring shells and the Monitor threw her first two shellfull a mile and a half from the Point.

The Moni or is now within a mile of Sewall's Point moving slowly forward and fixing. The enemy are also fixing briskly from Sewall's Point at the Munitor, and shells are falling thickly around her. Craney Island is also joining in the fight, and bas just thrown several shells at the Monitor, one of which exploded lirectly over her. The Monitor moved steadily forward, occasionally firing and receiving shells and shot from the robe battery with perfect in-

Two o'ctors. The Monther has falled back and lays alongside of the Sasqueban-na, probably for the purpose of communicating with her. The Naugatuck, in the meantime, has been throwing shells into Pig's Point, and the fleet has also thrown a number of them in the same direction. 2:15 P. M .-- The Monitor and Dacotah are moving along again slowly up the mouth of the Elizabeth river. A dense black smoke has commenced to arise from

Sewall's Point, indicating that our incendiary shells, thrown there, have fired the barracks. The Dacotah continues to throw her shells directly into the Point. The vessels by constantly changing position, destroy the range of the rebel gunnuers. They are, however, making quite a determined fight from their works, giving us almost shell for shell, shot for shot. The Monitor has laid out of action for nearly one hour, and is probably cooling her gons The Rip Raps battery has the range of

Sewall's Point perfectly, 2:45 r. M .- The Merrimac now makes proper name on the scene. She has just proceed from behind Sewall's Point, and is slowly renting down lowards the federal fleet. Intellegency with the appearance of the Herrimae the Monitor started from behind he wooden vessels and moved up to meet the seeiny. The larger moved up to meet the seemy. The larger vessels have drawn astronom and left. The Monitor and Naugatuck are now in the path of the approaching Mercinac. The vessels of the fleet had been lying mietly at ancher for the last half hour, whether at anchor for the last half nonr, who the signal from the flag ship ordered them in to return. The Susquehanna leads the way, followed by the San Jacinto, Seminole, Dacotah, and the Monitor bringing up the rear, and all using the greatest speed towards the fort. To the spectators this seemed rather mortifying. Down in line the Monitor was seen to halt, the San Jacinto and Dacotah also followed, leaving the Susquehanna and Seminole ahead.

The four steamers and the Monitor having taken their positious, the Merrimac also halted, and the fire vessels stood thus not more than a mile and a half apart, the Merrimac also more than a mile and a half apart, the Merrimac also more than a mile and a half apart, the Merrimac also makes the state of the state of

by the Vanderbilt, when both stopped. Af-

ter laying in this position, the Minnesota

turned round and steamed back, and the Vanderbilt, without turning, slowly-backed water down the river. Whilst this money vering was going on, firing had entirely ceased from all points.

3:30—The Merrimac turns round and

steams back towards Norfolk with her rebel flag flying. The Dacotah again proceeds up towards the Merrimac, and the Monitor starts towards the mouth of the Elizabeth The Dacotah is now within easy river. range of Sewall's Point, but the hatteries there do not open on her. She and the Monitor have both stopped, and the Merri mac is lying stationary about a mile from the Craney Island batteries. Her coming s an important movement which cannot be made public just yet. The Vanderbilt and Arago have now steamed up in front of the sharf. The Merrimac has run back under the guns of Craney Island, and the Monitor is steaming off towards her, at full speed. The Minnesota is also coming up again at full speed. The effort being to draw the rebels out again. For the past two hours the fleet have been moving back and for ward but the Merrimae still lies under the guns of Craney Island. The Minnesota, Arago and Vanderbilt have gone back to their anchorage, and their is no prospect of a fight to-night. The troops are going on board the transports and the war ressels, including the Monitor, have all returned to their anchorage.

The president viewed the action from a the present viewed the action from a tug boat lying about a mile in the rear of the fleet. He has just returned and has just passed up the wharf, and was vociferously cheered by the troops.

ebel flag staff on Sewall's Point was twice shot away during the bombardment. The first time it fell it was picked up, and a reliel in a red shirt jumped on the rampares with a surrop of the staff and the flag, and waved it, when another shell struck him, killing him, and it is supposed others near bim. Of the many shots fired at the fleet by the rebels not one struck any of our ressels; some went over their mark, but most fell short. The rebels could be distinctly seen from the vessels carrying off their dead and wounded.

The Rev. Charles S. Thompson, of Juneau, has accepted a call from the Presbyterian church of this city to become their pastor, and will commence his labors tomorrow, May 11th, 1862, preaching mor ning and evening.

The letter of Capt. Britton, from Gen. Halleck's army before Corinth, will be read with interest, not only because news is scarce from that quarter, but because it tells us that his company are all well, and that the army is confident of success. The naming of the camp of the regiment after the Captain is a compliment worthily bestowed. He is a model soldier, and has more friends anxious for his welfare than his modesty would allow him to believe.
